

DR KATE BARKER

# Keynote Speaking Brief

Keynotes, executive briefings and board retreats

Keynotes for boards, governments, executive teams and global forums navigating the shift from AI experimentation to AI consequence: how organisations create value, protect human capability, govern intelligent systems, sustain trust and build institutions fit for the next era of work and performance.

Board Advisor | Chief Futurist | Author | Keynote Speaker

**Six signature keynotes + one executive session + one featured author keynote**

# AI value and executive decision-making

---

Three commercially focused keynotes for senior audiences moving from AI interest to consequence, accountability and value.

01

## The AI Performance Advantage

---

How leaders turn human + AI capability into measurable organisational value.

**BEST FOR** CEOs, boards, executive teams and AI transformation events.

02

## The Age of AI Agents

---

What every board and executive team must decide as AI moves from advice to action.

**BEST FOR** Boards, C-suites, technology summits and regulated industries.

03

## When AI Joins the Executive Team

---

How judgement, influence and performance shift when machines enter the decision room.

**BEST FOR** Board retreats, CEO forums, executive committees and strategy offsites.

# Human capability and future horizons

---

Three keynotes for organisations and institutions asking what AI changes about people, behaviour, capability and the future.

04

## The Human Side of AI

---

What leaders must protect, redesign and amplify as intelligent systems reshape work.

**BEST FOR**

Global conferences, leadership summits, government forums and future-of-work events.

05

## The New Psychology of Work

---

How AI is changing behaviour, belief, influence and performance inside organisations.

**BEST FOR**

CHROs, transformation leaders, culture events and executive retreats.

06

## The 2050 Briefing

---

How AI, human capability and trust will reshape work, power and performance over the next generation.

**BEST FOR**

Governments, sovereign entities, global forums, CEO summits and economic conferences.

# Private rooms. Author-led insight.

For leadership conversations that need discretion,  
depth and room-specific consequence.

## EXECUTIVE SESSION

### Behind Closed Doors

The private session for leadership questions that cannot be asked on stage. A confidential, agenda-led conversation for boards, CEOs, executive committees and senior teams facing decisions that carry consequence.

**BEST FOR** Board retreats, CEO offsites, executive committees and sovereign entities.

## FEATURED AUTHOR KEYNOTE

### Hidden Power: Human Judgment in the Age of AI

What leaders must still know, question and decide when AI can answer almost anything. Based on Dr Kate Barker's book, this keynote explores the capabilities organisations sharpen, weaken or surrender as AI becomes embedded in decision-making, leadership and work.

**BEST FOR** Book-linked events, leadership forums, board retreats and executive audiences.

# Which keynote fits the room?

A simple guide for program chairs, board offices and executive teams selecting the conversation that best fits the audience.

Buyer need	Recommended keynote or session
AI needs to create measurable value	The AI Performance Advantage
We need to understand agentic AI	The Age of AI Agents
Our executive team needs to think differently	When AI Joins the Executive Team
We need a broad flagship AI keynote	The Human Side of AI
Behaviour, culture and adoption matter	The New Psychology of Work
We want a visionary future keynote	The 2050 Briefing
We need a closed-door board or executive session	Behind Closed Doors
We want the book-linked keynote	Hidden Power: Human Judgment in the Age of AI

## SPEAKING FORMATS

Mainstage keynote | Executive briefing | Board retreat | Executive offsite | Fireside conversation | Leadership masterclass
