

“
Successful leadership isn't just
about amassing a collection
of strong individuals.”

It's about how they maximise their
impact by working together.

Executive Team Development

Designed specifically for those in leadership roles – primarily CEOs their teams, our Executive Team Development programs represents the cutting edge of research, design & development into leadership effectiveness.

The program will elevate executives to strengthen their leadership capabilities, and help them transform, shape and influence the work environment, and the ways in which they approach their work and interact with each other.

FOCUS AREAS

- Leading the organisation's strategy with pace.
- Predicting and responding to inevitable future challenges.
- Making and implementing effective team decisions.
- Ensuring clarity and alignment on direction and accountabilities.
- Addressing and resolving any residual issues or conflicts.
- Establishing effective and efficient ways of working.
- Creating an operating rhythm and decision-making style
- Developing a Leadership team brand
- Supporting individual members on blind-spots.
- Identify ways to leverage each other's strengths

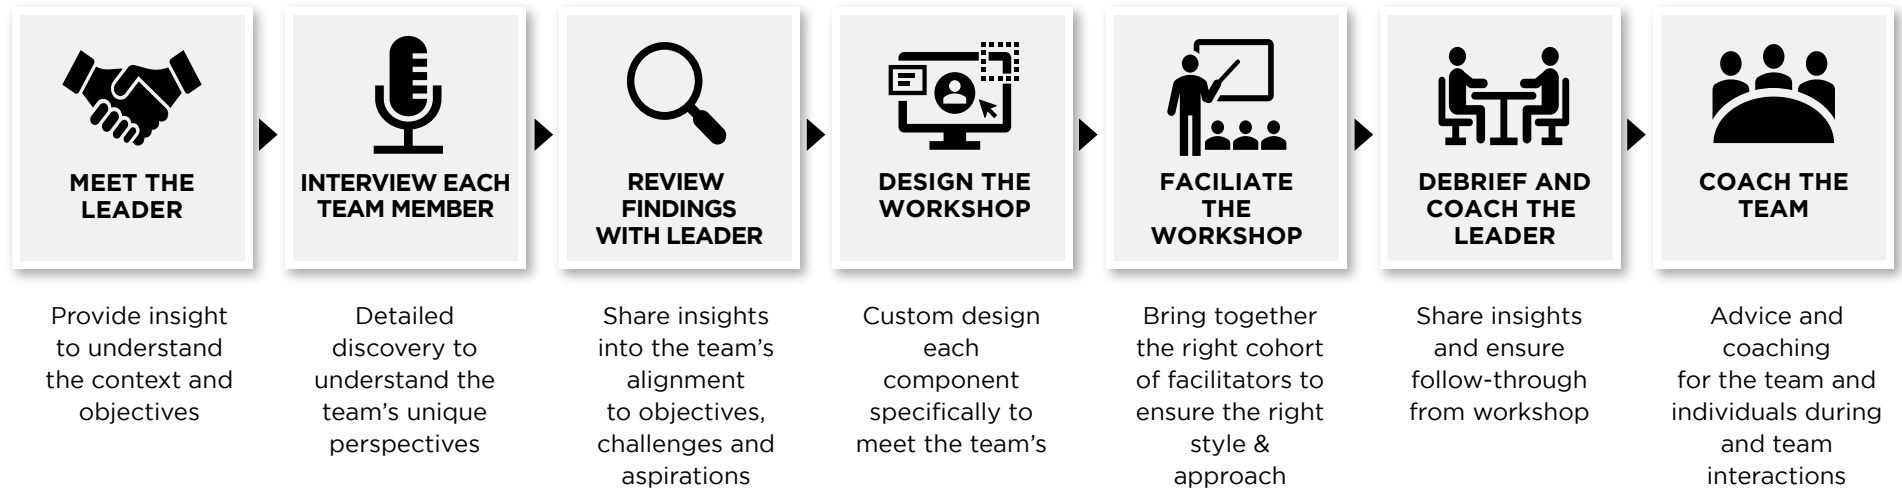

IDEAL TEAMS

- New CEO or Regional Leader with new expectations of team.
- Newly formed or expanded teams.
- Teams experiencing significant expansion in responsibility or business growth creating increase in pressure to perform.
- Team requires strengthening interpersonal relationships & EQ skills to improve leadership, collaboration & productivity.

CUSTOM DESIGNED PROGRAM

The program is custom designed, with a specific diagnostic stage to understand the team needs and program objectives prior to the design stage. Program includes a team assessment instrument to measure current state, to facilitate the discussion on the desired future team state. Action planning and follow-up is built into the program to ensure accountability is maintained and sustainability.
